

LITHIUM EP2 GREASE

DESCRIPTION

Lithium EP2 (200) Grease is a smooth, light brown grease for the lubrication of industrial ball and roller bearings in medium to high-speed applications.

Contains a highly refined base oil, lithium soap thickener fortified with EP/AW oxidation and rust inhibitors. It is suitable for operating temperatures between -30°C and 120°C.

APPLICATION

Industrial Fluids & Greases

Use in medium to high speed ball and roller bearings, electric motor bearings and pre-packed industrial bearings.

Method:

Apply fair layer to required area

PHYSICAL QUALITIES

Appearance: Amber grease
Solubility: Insoluble substance
Packaging: 15kg

IMPORTANT INFORMATION

Suitable for use as a general industrial grease where sliding speeds are moderate, loads are moderate and EP characteristics are required
